# HOW TO USE THE MAC BOOKING SYSTEM

1. **In your internet browser EITHER click on the 'Bookings' link from the aviation club's own website OR enter www.shlott.com/login into your browser (runs on most browser based smartphones, tablets, iToys and computers)**
2. **Enter your email address you joined the club with into 'Email Address' e.g. 'bob@anywhere.com'**
3. **Put the unique password you were emailed by the club captain into the 'Password' white box e.g. 'J1234'- note these words are both case sensitive.**

Perhaps you own your own aeroplane, and are not a regular flier of the club's four aeroplanes...there are benefits for all members to be logged in.

Everyone is kept informed via the message board where club members can post latest news, upcoming events, maintenance etc.

Notices: the system is configured so all members can send each other messages and group messages to discuss any problems with the aircraft and perhaps circulate available seats between each other.
